

HOLMES

Construction, Quarry, Agribusiness Equipment
HOME OF THE ROLLERBLADE

SNOWDOZER

Four times faster
than a bucket

ELIMINATE THE SCOOPING, CARRYING, AND DUMPING. JUST PUSH IT

Will go on virtually any machine:
Telehandlers
Skid loaders
Loader tractors
Tractor loader backhoes
OR SWITCH BETWEEN MACHINES

BUILT TO LAST

- **Cut your time in half moving snow**
- **Push silage**
- **Level off gravel lots**

8'-12' Standard Duty Series

Moldboard: 40" tall and wraps over the top to help contain and keep your pile rolling
Wear Shoes: Bolt on for easy replacement
Attachment: Universal skid loader quick attach plate, and bolt on bucket drive in forks
Cutting Edge: Adjustable/Reversible steel or rubber cutting edge
Durability: Powder coated to withstand the tough winter elements and built to last

12'-16' Heavy Duty Series

Moldboard: 50" tall
Wear Shoes: Bolt on for easy replacement, and built with industry leading abrasive resistant plate
Attachment: Bucket drive in tubes
Cutting Edge: Heavy duty rubber cutting edge
Durability: Built for large end loaders and heavily gusseted all the way around
